5. Dimensions and Tolerances

All dimensions, volumes and weights stated in this document are nominal values. Manufacturing tolerances apply as listed below. Glass parts may vary slightly due to the glass forming process; such variations within the stated tolerances are not considered defects.

Characteristic	Tolerance
Overall length of the assembled dropper	± 1.5 mm
Glass pipette length	± 1.0 mm
Glass pipette outer diameter	± 0.3 mm
Collar outer diameter	± 0.3 mm
Collar height	± 0.5 mm
Teat dimensions (diameter, height)	± 0.5 mm
Unit weight	± 15 %
Graduation marks (graduated pipettes)	indicative only, volume ± 10 %; not a measuring instrument
Colour (teat, collar, print)	minor shade variations between production batches are possible

6. Compatibility

- Thread: DIN18 / GL18 (18 mm), for glass bottles with DIN18/GL18 neck finish (e.g. our amber glass bottles 5–100 ml).
